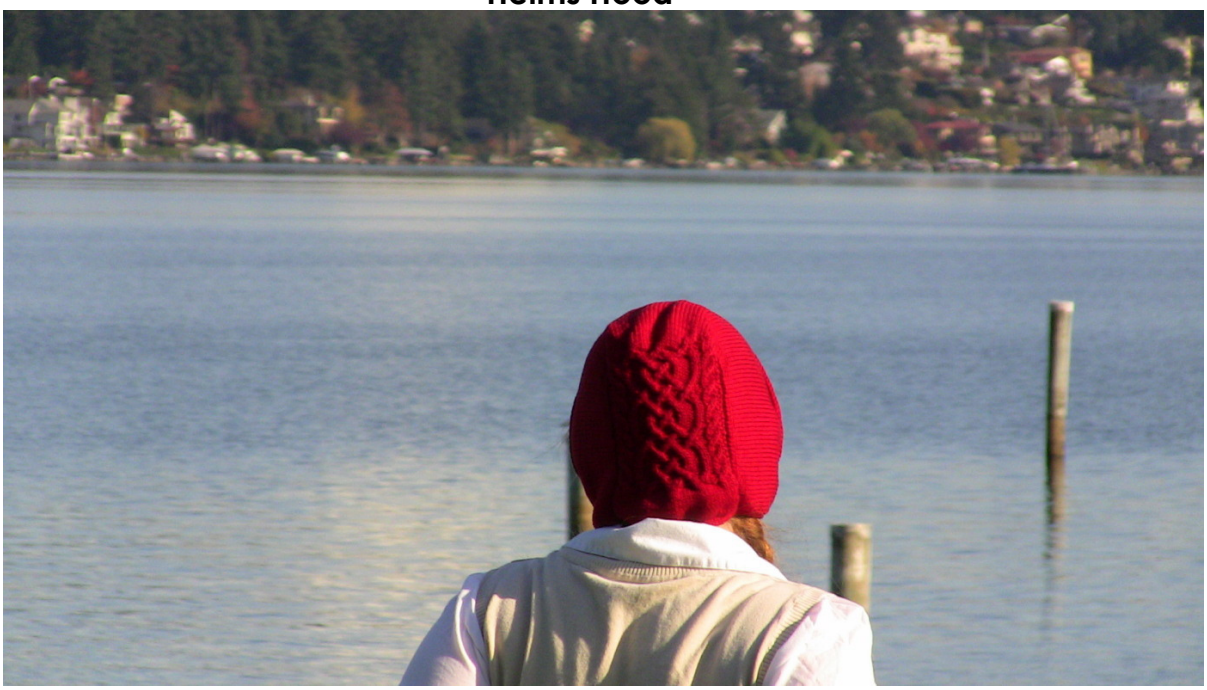
Helms Hood



by E.A. Kelley

In my spare time I like to participate in medieval recreation groups. Most of the people who do fighting in these groups wear some sort thin hood under their helm (also known as helmets). Most of the hoods are sewn, but I thought it might be nice to have a knitted alternative and so this is my result.

Based on a classic construction design with a little bit of shaping for the crown. I added cables for a little bit of visual interest. This hood is perfect for any time of the year as a little of bit cushion under any helm you are wearing or as a plain outer layer to protect you from the elements. Just pick a yarn and go.

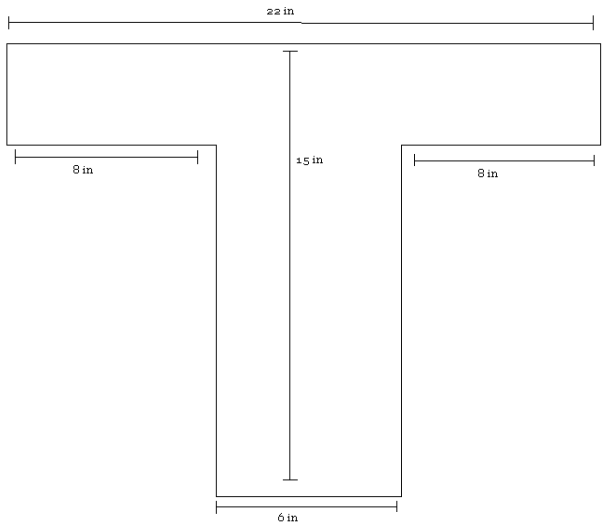
<u>End of T base</u>
R1: k even
R2: k1,p even to last st, k1
Rep until entire piece measures 15 inches long

FINISHING



BO and weave in ends. Block to a 22-inch length and 15 inch width. Seam the arms of the T shape to the sides of the base of the T shape using a crochet seam. With 2 dpns CO 3 sts leaving a 5-10 inch tail and start an I-cord. When the I-chord is 6-10 inches long beg an attached I-cord by picking up 2 sts at a time along the bottom edge of the hood. Cont working the attached I-cord all the way around until you reach the opp edge. Work another 6-10 inch I-chord, and BO leaving a 5-10 inch tail.
